General Comment

Amount of time spent updating my Organic System Plan: I spend about 40 to 50 hours but this does not include my daily notes in my activity log. I still don't always have enough details written down for the inspector. The time it takes to show on paper that I am in compliance with the pasture rule is about 30 minutes. But my certifier sends out a paper that is a check mark system, so I can check things off on a daily basis.
