Subject: Comments on Renewal of Information Collection

I just wanted to comment on the Federal Register notice regarding the above. It has been our experience that the collection and reporting of the information has been much more than 5 hours per year as required currently. Our annual reviews for competitive employment take many hours (estimated 40). In addition, we do not currently collect data by project, only overall AbilityOne/non AbilityOne business. We would have to refine our data collecting systems to be able to do this and pulling the information would take at least 10 hours per quarter.
