Categories of individuals covered by the system:

Physicians, nurses, physician assistants, clinician trainees, and other health personnel who have participated in training activities, surveys, and studies developed by the Centers for Disease Control (CDC), and control group health professionals who have not participated in training activities.

Categories of records in the system:

Responses to questionnaires by physicians, nurses, physician assistants, clinician trainees, and related health personnel, pertaining to knowledge, attitude and practices relating to health problems, diseases and/or other potential preventable conditions of public health significance; health care and related training data; and demographic data of the survey population as well as identification data for followup purposes.

Authority for maintenance of the system:

Purpose(s):

This record system enables CDC officials to maintain training records and assess the impact of the agency's training programs on the knowledge, attitudes and practices of clinicians and other health care personnel, in order to develop improved training curricula and programs for disease prevention and control for such health care personnel.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Disclosure may be made to CDC contractors in the conduct of training surveys and studies covered by this system notice and in the preparation of scientific reports, in order to accomplish the stated purposes of the system. The recipients will be required to maintain Privacy Act safeguards with respect to such records.

CDC is under contract with private firms for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records are disclosed to such contractors. The contractors are required to maintain Privacy Act safeguards with respect to such records.

Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when: (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

Records may be disclosed to appropriate federal agencies and Department contractors that have a need to know the information for the purpose of assisting the Department's efforts to respond to a suspected or confirmed breach of the security or confidentiality of information disclosed is relevant and necessary for that assistance.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Computer tapes/disks and printouts, file folders.

Retrievability:

Name of individual respondent, identification number, and type of training received are some of the indices used to retrieve records from this system.

Safeguards:

1. Authorized users: Access is granted to only a limited number of personnel, i.e., CDC Project Officer, interviewers and designated support staff of CDC or its contractors, as authorized by the system manager to accomplish the stated purposes for which the data in this system have been collected.
2. Physical safeguards: Locked cabinets in locked rooms, 24-hour guard service in buildings, personnel screening of visitors, electronic anti-intrusion devices in operation at the Federal Records Center, fire extinguishers, overhead sprinkler system and card-access control equipment in the computer room, computer terminals and automated records located in secured areas.
3. Procedural safeguards: Protection for computerized records includes programmed verification of valid user identification code, account code and password prior to acceptance of a terminal session or job submission, frequently changed passwords, and Vault Management System. Knowledge of individual tape passwords is required to access tapes, and access to systems is limited to users obtaining prior supervisory approval. When Privacy Act tapes are scratched, a special "certified" process is performed in which tapes are completely written over to avoid inadvertent data disclosure. Additional safeguards may be built into the program by the system analyst as warranted by the sensitivity of the data.

CDC and contractor employees who maintain records are instructed to check with the system manager prior to making disclosures of data. When individually identified data are being used in a room, admittance at either CDC or contractor sites is restricted to specifically authorized personnel. Privacy Act provisions are included in contracts, and the CDC Project Director, contract officers and project officers oversee compliance with these requirements. Upon completion of the contract, all data will be either returned to CDC or destroyed, as specified by the contract.

4. Implementation guidelines: The safeguards outlined above are developed in accordance with Chapter 45-13, "Safeguarding Records Contained in Systems of Records," of the HHS General Administration Manual, supplementary Chapter PHS.hf: 45-13; Part 6, "Automated Information System Security," of the HHS Information Resources Management Manual; the National Bureau of Standards Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31). FRC safeguards are in compliance with GSA Federal Property Management Regulations, Subchapter B—Archives and Records.

Retention and disposal:

Records are maintained in agency for two years. Disposal methods include erasing computer tapes, burning or shredding paper materials or transferring records to the Federal Records Center when no longer needed for evaluation and analysis. Records destroyed by paper recycling process after 12 years, unless needed for further study.
