comments should register on the Public Comment Registration list available at the meeting location no later than 15 minutes prior to the beginning of the meeting.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. Appendix. The National Infrastructure Advisory Council shall provide the President, through the Secretary of Homeland Security, with advice on the security and resilience of the Nation’s critical infrastructure sectors.

The NIAC will meet to discuss issues relevant to critical infrastructure security and resilience as directed by the President.

The meeting will commence at 12:30 p.m. EST. At this meeting, the council will receive a presentation on Water Resilience and Applying Lessons Learned From Post Event Recovery. The council will also receive updates on the status of the Water Resilience Working Group and past NIAC Recommendations. The Council will discuss and deliberate the CEO report recommendations clarification. All presentations will be posted no later than one week prior to the meeting on the Council’s public Web page—www.dhs.gov/NIAC.

Public Meeting Agenda
I. Opening of Meeting
II. Roll Call of Members
III. Opening Remarks and Introductions
IV. Approval of Meeting Minutes
V. Status of Past NIAC Recommendations
VI. Water Resilience—Applying Lessons Learned From Post Event Recovery
VII. Status Update on Water Resilience Working Group
VIII. Public Comment
IX. CEO Report Recommendation Clarification Discussion
X. Closing Remarks

Dated: November 9, 2015.

Ginger Norris,
Alternate Designated Federal Officer for the National Infrastructure Advisory Council.

[FR Doc. 2015–23972 Filed 11–17–15; 8:45 am]
BILLING CODE 9110–9P–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS–2015–0058]

Chemical Security Assessment Tool (CSAT)

AGENCY: National Protection and Programs Directorate, DHS.

ACTION: 60-Day notice and request for comments; Revision of Information Collection Request: 1670–0007.

SUMMARY: The Department of Homeland Security (DHS or the Department), National Protection and Programs Directorate (NPPD), Office of Infrastructure Protection (IP), Infrastructure Security Compliance Division (ISCD), will submit the following Information Collection Request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35).

DATES: Comments are encouraged and will be accepted until January 19, 2016. This process is conducted in accordance with 5 CFR 1320.8.

ADDRESSES: Interested persons are invited to submit comments on the proposed information collection through the Federal eRulemaking Portal at http://www.regulations.gov. All submissions received must include the words “Department of Homeland Security” and the docket number DHS–2015–0058. Except as provided below, comments received will be posted without alteration at http://www.regulations.gov, including any personal information provided.

Comments that include trade secrets, confidential commercial or financial information, Chemical-terrorism Vulnerability Information (CVI),¹ Sensitive Security Information (SSI),² or Protected Critical Infrastructure Information (PCII)³ should not be submitted to the public regulatory docket. Please submit such comments separately from other comments in response to this notice. Comments containing trade secrets, confidential commercial or financial information, CVI, SSI, or PCII should be appropriately marked and packaged in accordance with applicable requirements and submitted by mail to the DHS/NPPD/IP/ISCD CFATS Program Manager at the Department of Homeland Security, 245 Murray Lane SW., Mail Stop 0610, Arlington, VA 20528–0610. Comments must be identified by docket number DHS–2015–0058.

The CFATS regulations (available at 6 CFR part 27) govern the security at covered chemical facilities that have been determined by the Department to be at high risk for terrorist attack. See 6 CFR part 27. CFATS represents a national-level effort to minimize terrorism risk to such facilities. Its design and implementation balance maintaining economic vitality with securing facilities and their surrounding communities. The regulations were designed, in collaboration with the private sector and other stakeholders, to take advantage of protective measures already in place and to allow facilities to employ a wide range of tailored measures to satisfy the regulations’ Risk-Based Performance Standards (RBPS).

The Department collects the core regulatory data necessary to implement CFATS through the portions of the Chemical Security Assessment Tool (CSAT) covered under this collection. For more information about CFATS and CSAT, you may access www.dhs.gov/chemicalsafety. The current information collection for CSAT (IC

²For more information about SSI see 49 CFR part 1520 and the SSI Program Web page at http://www.tsa.gov.

The estimated annual number of respondents for the Top-Screen is 2,574 respondents (i.e., chemical facilities of interest) that submitted a Top-Screen for the first time. This information is displayed in Table 1 below:

<table>
<thead>
<tr>
<th>Year 1 CY 2012</th>
<th>Year 2 CY 2013</th>
<th>Year 3 CY 2014</th>
<th>Total</th>
<th>Average annual</th>
</tr>
</thead>
<tbody>
<tr>
<td>Estimated number of Top-Screen respondents in the current information collection.</td>
<td>2,500</td>
<td>2,500</td>
<td>2,500</td>
<td>7,500</td>
</tr>
<tr>

<td>858</td>
<td></td>
<td>(rounded).</td>
<td></td>
</tr>
</tbody>
</table>

Because the annual average of 858 respondents is less than half of the annual number of respondents estimated in the 2007 CFATS Regulatory Evaluation for CY 2012–2014 (i.e., 2,500), the Department will revise the estimated number of respondents for this instrument to 1,000 respondents annually.

Estimated Time per Respondent

In the current information collection, the estimated time per respondent to prepare and submit a Top-Screen is 11.25 hours. This estimate assumed that the majority of the burden associated with the Top-Screen was outside of the Department’s ability to quantitatively measure. However, by using the data collected during CY 2012–2014, the Department was able to measure the duration a respondent was logged into the Top-Screen application. Based upon actual historical data, the Department determined that 95% percent of respondents, who submitted Top-Screens, were logged into the CSAT Top-Screen application for no more than 1.2 hours (72 minutes). In response to previous comments provided by stakeholders in the last round of public comments on this Information Collection, the Department estimates that for every hour a respondent is logged into the CSAT Top-Screen application, the respondent spends an average of four hours in preparation. Therefore, for the purposes of this notice, the Department’s estimated time per respondent to submit a Top-Screen is 6 hours [1.2 hours × (1.2 hours × 4 hours)] To account for the anticipated resubmission by respondents, the Department further estimates that 50 percent of the respondents will submit two Top-Screens.

The Department expects to implement a revised Top-Screen with the approval of this information collection. The Department expects that as a result of the revised Top-Screen respondents will spend about approximately the same amount of time logged into the CSAT Top-Screen application as Top-Screen users have, historically. The revised Top-Screen will: (1) Streamline the entry of information about chemicals of interest (COI) into CSAT; (2) add new questions to assist respondents in identifying the COI related security issue(s); (3) include questions currently asked in the current Security Vulnerability Assessment (SVA) and Alternative Security Program (ASP) Instrument; and (4) utilize geospatial technology to identify area of highest quantity.

The Department also collects supporting documentation from approximately half of the respondents. Based upon the Department’s day-to-day informal discussions with respondents, the Department believes that a reasonable burden for the gathering and provision of supporting documentation is 0.25 hours.

Annual Burden Hours

The annual burden hours for the Top-Screen is [6 hours × 1,000 respondents × 1.5 responses per respondent], which equals 9,000 hours. The annual burden hours to submit supporting documentation is 125 hours [0.25 hours × 500 respondents × one response per respondent]. Therefore, the Department estimates that the total annual burden hours for the Top-Screen is 9,125 hours [9,000 hours + 125 hours]. The rounded estimate is 9,200 hours.

Total Burden Cost (Capital/Startup)

The Department provides access to CSAT free of charge and the Department assumes that each respondent already has access to the internet for basic business needs. As mentioned previously in this notice, the Department expects to revise the Top-Screen when this information collection is approved. The revised Top-Screen will enable the Department to begin using an improved tiering methodology that incorporates the relevant elements of risk, which was mandated by Section 2102(e)(2) of the Protecting and Securing Chemical Facilities from Terrorist Attacks Act of 2014 (the CFATS Act of 2014). As a result of the development of the new tiering methodology, the Department is considering requesting chemical facilities of interest that have chemical holdings at or above the screening.

5 The current information collection for CSAT may be found at http://www.reginfo.gov/public/do/PHAViewCR?ref_nbr=201303-1670-001
7 The comments and the Department’s response are described in the 30-day notice the Department published for this Information Collection in March of 2013 [http://www.reginfo.gov/public/do/PHAViewCR?ref_nbr=201303-1670-001]
threshold quantities on Appendix A of
CFATS to complete the Top-Screen,
even if the facility has previously
completed a Top-Screen and been
determined not to be high-risk. Between
the effective date of CFATS in June 2007
and December 2014, the Department has
received Top-Screens from
approximately 36,930 unique facilities.
Therefore the Department estimates that
there will be a one-time capital/startup
cost of $15,005,397.60 [36,930 facilities
× 6 hours × $67.72 (average hourly wage
rate for Site Security Officers)]. The
rounded estimate is $15,005,400.

Total Recordkeeping Burden
A respondent that has submitted a
Top-Screen may or may not be
determined by the Department to
present a high level of security risk. Only
respondents that present a high
level of security risk are required to
keep records mandated by CFATS.
For respondents that ultimately are
determined not to present a high level
of security risk, the Department
estimates any CFATS recordkeeping
burden to be de minimis.
For respondents that are determined
to present a high level of security risk,
the Top-Screen recordkeeping burden is
accounted for within the recordkeeping
burden estimate for the “Site Security
Plan (SSP) and Alternative Security
Program (ASP) submitted in lieu of the
Site Security Plan,” discussed later in
this notice. The recordkeeping burden
estimate for the “Site Security Plan
(SSP) and Alternative Security Program
(ASP) submitted in lieu of the Site
Security Plan” accounts for all records
respondents are required to maintain
under CFATS because the Department
assumes that respondents maintain their
Top-Screen records and any other
required records in the same manners,
formats, and locations as they maintain
their SSP/ASP records.

Total Annual Burden Cost
The 2007 CFATS Regulatory
Evaluation assumes that Site Security
Officers are responsible for submitting
Top-Screens. For the purpose of this
notice, the Department maintains this
assumption.
Therefore, to estimate the total annual
burden, the Department multiplied the
annual burden of 9,125 hours by the
average hourly wage rate of Site
Security Officers of $67.72 per hour
and then added the one-time startup
cost. Therefore, the total annual burden
cost for the Top-Screen instrument is
$15,623,342.60 [9,125 total annual
burden hours × $67.72 per hour +
$15,005,397.60]. The rounded estimate
is $15,623,400.

The Department’s Methodology in
Estimating the Burden for the Security
Vulnerability Assessment (SVA) &
Alternative Security Program (ASP)
Submitted in Lieu of the Security
Vulnerability Assessment

Number of Respondents
The current information collection
estimated that 740 respondents would
complete an SVA/ASP annually during
CY2012–2014 that had not previously
submitted an SVA/ASP. The number of
respondents was derived by a two-step
process. The first step estimated the
expected number of SVAs/ASPs by
multiplying the estimated number of
Top-Screens in each CY by the
percentage of Top-Screens that resulted
in a determination by the Department
that an SVA or ASP in lieu of an SVA
must be submitted by a respondent (i.e.,
a covered chemical facility). When the
current information collection was
approved in September of 2014, that
cost was 29.6 percent. The estimated
number of SVAs or ASPs in lieu of
SVAs that must be submitted by
respondents was then averaged. See the
table below for estimates.

| TABLE 2—SVA/ASP RESPONDENTS ESTIMATES IN CURRENT INFORMATION COLLECTION BASED ON TOP-SCREEN RESPONDENTS |
|--------------------------------------------------|--------|--------|--------|--------|--------|
| Estimated number of Top-Screen Respondents in the current information collection | Year 1 CY 2012 | Year 2 CY 2013 | Year 3 CY 2014 | Total | Average annual |
| Estimated number of SVA/ASP Respondents in the current information collection | 740 | 740 | 740 | 2,220 | 740 |

In actuality, during CY2012–2014,
there were 633 respondents (i.e.,
chemical facilities of interest) that
submitted an SVA/ASP for the first
time. This information is displayed in
Table 3 below:

<table>
<thead>
<tr>
<th>TABLE 3—SVA/ASP RESPONDENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Estimated number of SVA/ASP respondents in the current information collection</td>
</tr>
<tr>
<td>740</td>
</tr>
<tr>
<td>Actual Number of Respondents</td>
</tr>
</tbody>
</table>

The Department is satisfied that the
methodology to estimate the number of
respondents is reasonable because the
percentage of Top-Screens that resulted
in a determination by the Department
that an SVA or ASP in lieu of an SVA
was relatively stable. Historical data
from the Department during CY2012–
2014 revealed that the percentage
of Top-Screens that subsequently resulted
in a determination that an SVA or ASP
in lieu of an SVA must be submitted by

---

9 The average hourly wage rate was based on an average hourly wage rate of $47.21 with a benefits multiplier of 1.43. The $47.21 rate was based on the Consumer Price Index (CPI).
a respondent was 21.1 percent. This is a small change from the previous percentage of 29.6 percent. The estimated number of SVAs or ASPs in lieu of SVAs that must be submitted by respondents was determined by CY and then averaged. Therefore, for the purposes of this notice, the number of SVA/ASP respondents is 211 [1,000 Top-Screen Respondents x 0.211]. The Department opted to not round the estimate. See table below.

**Estimated Time per Respondent**

The current information collection estimated the time per respondent for preparing and submitting an SVA/ASP to be 65 hours. This estimate assumed that the majority of the burden associated with the SVAs/ASPs was outside of the Department’s ability to quantitatively measure. However, by using the data collected during CY 2012–2014, the Department was able to measure the duration a respondent was logged into the SVA/ASP application. Based upon actual historical data, the Department determined that 95 percent of respondents who submitted SVAs were logged into the CSAT SVA/ASP application for no more than 5.3 hours. The Department expects to implement a revised SVA/ASP with the approval of this information collection. The Department expects that as a result of the revised SVA/ASP respondents will spend 90 percent less time logged into the SVA/ASP application when the revised SVA/ASP will (1) have duplicative questions removed that exist in the SSP/ASP; (2) a few questions will be moved to the Top-Screen to support the improved tiering methodology; and (3) the attack scenarios and related questions will also be removed.

In response to previous comments provided by stakeholders in the last round of public comments on this Information Collection, the Department estimates that for every hour a respondent is logged into the CSAT SVA/ASP application, it spends an average of four hours in preparation. Therefore, for the purpose of this notice, the Department’s estimated time per respondent to submit an SVA/ASP is 2.65 hours [0.25 hours x 1 respondent] + (5.3 hours x 0.1) x 1 hour].

During CY 2012–2014, for every initial submission of an SVA, respondents generally submit two additional SVA/ASPs. However, the Department believes that the reasons for this higher than expected submisssion rate have been addressed and will not be repeated. Therefore, the Department anticipates that only 50 percent of the respondents will submit two SVAs/ASPs.10

The Department also collects supporting documentation from approximately half of the respondents. Based upon the Department’s day-to-day informal discussions with respondents, the Department believes that a reasonable burden for gathering and provision of supporting documentation is 0.25 hours per respondent.

**Annual Burden Hours**

The annual burden hours for an SVA/ASP is 838.725 hours [211 respondents x 2.65 hours x 1.5 responses per respondent].

The annual burden estimate to obtain supporting documentation is 26.375 hours [0.25 hours x 211 respondents x 0.5 x 1 response per respondent]. Therefore, the Department estimates that the total annual burden in hours for the SVA/ASP is 865.10 hours [838.725 hours + 26.375 hours]. The rounded estimate is 900 hours.

**Total Burden Cost (Capital/Startup)**

The Department provides access to CSAT free of charge, and the Department assumes that each respondent already has access to the internet for basic business needs. Therefore, for the purposes of this notice, the Department estimates that there are no capital/startup costs.

**Total Recordkeeping Burden**

A respondent that has submitted an SVA/ASP may or may not be determined by the Department to present a high level of security risk. Only respondents that present a high level of security risk have a recordkeeping requirement.

For respondents that ultimately are determined not to present a high level of security risk, the Department estimates any CFATS recordkeeping burden to be de minimis. For respondents that are determined to present a high level of security risk, the SVA recordkeeping burden is accounted for within the recordkeeping burden estimate for the “Site Security Plan (SSP) and Alternative Security Program (ASP) submitted in lieu of the Site Security Plan,” discussed later in this notice. The recordkeeping burden estimate for the “Site Security Plan (SSP) and Alternative Security Program (ASP) submitted in lieu of the Site Security Plan” accounts for all records respondents are required to maintain under CFATS because the Department assumes that respondents maintain their Top-Screen records and any other required records in the same manners, formats, and locations as they maintain their SSP/ASP records.

**Total Annual Burden Cost**

The 2007 CFATS Regulatory Evaluation assumes that Site Security Officers will be responsible for submitting SVAs/ASPs. For the purpose of this notice, the Department maintains this assumption.

The total annual burden cost for the SVA/ASP is $58,584.57 [865.10 total annual burden hours x $67.72 (average hourly wage rate for Site Security Officers)]. The rounded estimate is $58,600.

**The Department’s Methodology in Estimating the Burden for Site Security Plan (SSP) & Alternative Security Program (ASP) Submitted in Lieu of the Site Security Plan**

**Number of Respondents**

The current information collection estimated that 486 respondents would complete an SSP/ASP annually during CY 2012–2014 that had not previously submitted an SSP/ASP. In actuality, during CY2012–2014, there were 336 respondents that submitted an SSP/ASP.
The Department expects to revise both the SVA/ASP and the SSP/ASP with this information collection. One of the expected outcomes of revisions is that potentially 100 percent of respondents to the SVA/ASP will be a respondent of the SSP/ASP, due to the improved tiering methodology that will be implemented by the Department using data collected through the Top-Screen instrument. The Department anticipates both greater accuracy in the initial tiering determination and also substantially greater confidence in the tiering result. Hence, while the Department reserves the right and ability to conduct a second tiering as described in 6 CFR 27.220, the Department anticipates relying on the results of initial tiering determination for the second tiering unless the Department identifies a reason for not doing so on a case by case basis. An important benefit of this approach is that the lengthy tiering process will be streamlined for the majority of respondents that previously would have been required to complete a second survey in order to receive a final determination of not high risk. These facilities would have to only complete the Top-Screen to get to the same determination. For the purpose of estimating the number of respondents that will complete an SSP/ASP in this notice, the Department will make it equal to the number of SVA/ASP respondents, 211 respondents, because all SVA/ASP respondents will be expected to subsequently complete the SSP/ASP.

The Department considered modifying the number of SSP/ASP respondents to account for submissions of SSPs due to requirements of Section 2102 of the Homeland Security Act of 2002, which among other actions, modifies CFATS by adding a new process by which a respondent, assigned to (risk-based) Tier 3 or Tier 4 by the Department, can meet its regulatory requirement to draft and implement a Site Security Plan through a new process called the “Expedited Approval Program.” The Department ultimately has not has opted to not adjust the number of respondents because: (1) Most Tier 3 and Tier 4 facilities have approved SSPs; and (2) to date the Department has received few notifications from Tier 3 and Tier 4 facilities indicating that they plan to use the Expedited Approval Program.

Estimated Time per Respondent

The current information collection estimated the time per respondent for preparing and submitting a SSP/ASP to be 225 hours. This estimate assumed that the majority of the burden associated with the SSPs/ASPs is outside of the Department’s ability to quantitatively measure. However, by using the data during CY 2012–2014, the Department was able to measure the duration a respondent was logged into the SSP/ASP application. The Department determined that 95 percent of respondents who submitted SSPs were logged into the CSAT SSP/ASP application for no more than 12.5 hours. As mentioned earlier in this notice, the Department expects to revise the SSP/ASP when this information collection is approved. The Department expects that as a result of the revised SSP/ASP respondents will spend 70 percent less time logged into the SSP/ASP application because the SSP/ASP will (1) have duplicative and unnecessary questions removed that exist in the SVA/ASP (e.g., questions related to asset identification in the SSP) and import relevant answers from the SVA/ASP, and (2) reorganize the SSP/ASP questions in a streamlined process based upon the Department’s experience with respondents over the past several years. The reorganization of SSP/ASP questions will allow the Department to also remove repetitive questions.

In response to previous comments provided by stakeholders in the last round of public comments on this Information Collection, the Department estimates that for every hour a respondent is logged into the CSAT SSP/ASP application, it spends an average of four hours in preparation. Therefore, for the purpose of this notice, the Department’s estimated time per respondent to submit an SSP/ASP is 18.75 hours. ([12.5 hours × 0.3] + [(12.5 hours × 0.3) × 4 hours]). The rounded estimate is 18.75 hours.

As mentioned earlier in this notice, there was a higher than expected resubmission of SSP/ASPs. In fact during CY 2012–2014, there were 2,721 SSP/ASPs resubmitted. The vast majority of the resubmissions were submitted by respondents who has submitted an initial SSP/ASP prior to CY 2012. To account for the increased resubmission of SSP/ASPs by respondents, the Department estimates that each respondent will submit an additional SSP/ASP.14

The Department also collects supporting documentation from approximately half of the respondents. Based upon the Department’s day-to-day informal discussions with respondents, the Department believes that a reasonable burden for the gathering and provision of supporting documentation is 0.25 hours per respondent.

Annual Burden Hours

The annual burden hours for SSP/ASP submission is 7,912.50 hours [18.75 hours × 211 SSP/ASP].

---

12 Between 2012 and 2014, the Department made substantial progress in addressing the number of SSP/ASPs received prior to 2012 from covered chemical facilities. The Department received 2,721 SVA/ASPs during CY2012 through CY2014 (i.e., 103 revised SSP/ASP in 2012, 1,026 revised SSP/ASPs in 2013, and 1,592 SSP/ASPs in 2014). The Department accounts for the cost of resubmitted SVA/ASPs in the next section titled, “Estimated Time Per Respondent.”

13 The numerical value of 0.3 is used to reflect that 70% reduction of time a respondent is expected to be logged into the CSAT SSP/ASP.

14 The Department analyzed the amount of time a respondent was logged into CSAT when submitting an initial SSP/ASP versus an additional SSP/SVP and determined that additional SVA/ASPs took 14% less time on average than initial SSP/ASPs. The Department, for the purpose of this notice, opted not to break out the initial and subsequent SSP/ASPs to analyze the minimal burden difference.
respondents \times 2 \text{ response per respondent}.\]

The annual burden hours for obtaining supporting documentation is 26.3750 hours \(0.25 \text{ hours} \times (0.5 \times 211 \text{ SSP/ASP respondents}) \times (\text{one response per respondent})\).

Therefore, the Department estimates that the total annual burden hours for SSP/ASP submission is 7,938.8750 hours \([7,912.50 \text{ hours} + 26.3750 \text{ hours}]\). The rounded estimate is 8,000 hours.

**Total Burden Cost (Capital/Startup)**

The Department provides access to CSAT free of charge, and the Department assumes each respondent already has access to the internet for basic business needs. Therefore, for the purposes of this notice, the Department estimates that there are no capital/startup costs.

**Table 6—SSP/ASP Paper-Based Recordkeeping Costs**

<table>
<thead>
<tr>
<th></th>
<th>Locked filing cabinet cost</th>
<th>Paper and ink/toner Cost</th>
<th>Year 1 cost</th>

<td>$350</td>
<td>$250</td>
<td>$600</td>
<td>$250</td>
<td>$250</td>
<td>$367 (rounded)</td>
</tr>
</tbody>
</table>

The Department assumes that clerical staff will spend 48 hours per year (four hours per month) maintaining records, such as filing, binding, etc. For the purpose of this notice the Department used the wage rate of \$37.51 per hour.\(^{15}\)

Thus, the Department estimates the labor related to paper-based recordkeeping burden is \$1,800.48 per SSP/ASP [48 hours \times \$37.51].

Alternatively, although it is not required, businesses may keep their records electronically. Under this scenario, the Department maintains its assumption that a small number of respondents (i.e., 5 percent) will purchase a computer loaded with basic spreadsheet software. For the purpose of this notice, the Department assumes that 5 percent of respondents will purchase a computer and printer to maintain records at a total cost of \$1,000. Thus, the annual average cost for physical costs related to electronic-based recordkeeping is \$333 (rounded) per SSP/ASP.

The Department assumes that there will be a larger time commitment for updating records and inputting data into a spreadsheet. Hence, the Department maintains its estimate of six hours per month to maintain electronic records. Thus, the Department estimates the labor related to electronic-based recordkeeping burden is \$2,700.72 [72 hours \times \$37.51 (average hourly wage rate for clerical staff)].

Therefore, for the purposes of this notice, the Department estimates that the annual recordkeeping burden is \$438,744.116 [(\$367 + \$1,800.48) \times (0.95 \times 211 \text{ SSP/ASP respondents}) + ((\$333 + \$2,700.72) \times (0.05 \times 211 \text{ SSP/ASP respondents})]. The rounded estimate is \$438,800.

**Total Annual Burden Cost**

The total annual burden cost for the SSP/ASP is \$976,364.731 \([7,938.8750 \text{ hours} \times \$67.72 (average hourly wage rate for Site Security Officers) + \$438,744.116 \text{ total annual recordkeeping burden}]\). The rounded estimate is \$976,400.

**The Department’s Methodology in Estimating the Burden for the Helpdesk Number of Respondents**

The Department evaluated the historical data to determine if the current information collection estimate of 15,000 respondents continued to be an appropriate estimate for Helpdesk. During CY 2012–2014, the Helpdesk accepted 30,452 calls and 12,246 emails.

<td>15,802</td>
<td>17,366</td>
<td>42,698</td>
<td>14,233 (rounded).</td>
</tr>
</tbody>
</table>

The actual average annual number of respondents for this time period was 14,233 respondents (calls and emails). The Department will maintain the estimated number of respondents of 15,000, based on actual historical data.

Estimated Time per Respondent

The Department evaluated the historical data to determine if the estimated time per respondent of 0.17 hours (10 minutes) continued to be an appropriate estimate. During CY 2012–2014, the actual average Helpdesk call averaged less than eight minutes.

TABLE 8—HELPDESK CALL TIME AVERAGES

<table>
<thead>
<tr>
<th>Year 1 CY 2012</th>
<th>Year 2 CY 2013</th>
<th>Year 3 CY 2014</th>

<td>7:38</td>
<td>8:09</td>
<td>7:15</td>
</tr>
</tbody>
</table>

The Department does not have any information about the average amount of time it took respondents to type and send the 12,246 emails during CY 2012–2014. Therefore, for the purpose of this notice, the Department has maintained the estimated time per respondent of 0.17 hours.

Annual Burden Hours

The annual burden for the Helpdesk will be 2,550 hours [0.17 hours × 15,000 respondents].

Total Burden Cost (Capital/Startup)

Contacting the CFATS Helpdesk is free, and the Department assumes that each respondent already has a phone and/or access to the internet for basic business needs. Therefore, for the purposes of this notice, the Department estimates that there are no capital/startup costs.

<td></td>
<td>1,011</td>
</tr>
</tbody>
</table>

The Department expects the actual number of respondents to fluctuate. However, for the purposes of this notice the Department estimates the number of respondents is 1000 annually.

Estimated Time per Respondent

In the current information collection, the estimated time per respondent is two hours. The Department will maintain the assumption that two hours is an adequate amount of time for the respondent to (1) complete the online CSAT User Registration process, and subsequently (2) collect and submit the necessary signatures on the user access agreement.

Annual Burden Hours

The annual burden estimate for User Registration is 2,000 hours [2 hours × 1000 respondents].

Total Burden Cost (Capital/Startup)

The Department assumes that each respondent already has a fax capability and access to the internet for basic business needs. However, the Department expects to be revising the CSAT User Management application to reduce the burden on respondents and improve the functionality of the CSAT User Management application. The Department expects that there will be a one-time burden for all existing CSAT Users when the CSAT User Management application is updated. The Department expects the one-time burden to be 0.17 hours (10 minutes) per CSAT user. As of September 2015, there were 24,630 active CSAT accounts; therefore, the Department estimates that there will be a capital/startup cost of $283,550.4120 [24,630 Active CSAT users × 0.17 hours × $67.72 (average hourly rate for Site Security Officers)]. The rounded estimate is $283,550.
Security Officers]). The rounded estimate is $283,600.

Total Recordkeeping Burden

There is no recordkeeping burden for submitting a User Registration application.

Total Annual Burden Cost

The total burden for User Registration is $418,990.4120 [2,000 annual burden hours × $62.72 (average hourly rate for Site Security Officers) + $283,550.4120 (Capital/Startup Burden Cost)]. The rounded estimate is $419,000.

The Department’s Methodology in Estimating the Burden for Identification of Additional Facilities and Assets At Risk

Number of Respondents

The Department may collect information from each respondent of a SSP/ASP under this instrument. Respondents are not required to provide this information to the Department for purposes of complying with any portion of CFATS. The Department estimates the number of respondents to this instrument will be equal to the number of respondents to the SSP/ASP, or 211 respondents.

Estimated Time per Respondent

This instrument will request information from covered chemical facilities about their chemical of interest supply and distribution chain or other information about their business operations to allow the Department to potentially identify either potential chemical facilities of interest or potential assets at risk at the covered chemical facility. Participation in this collection will be voluntary and respondents will not be required to provide this information to the Department for purposes of complying with any portion of CFATS. The Department expects the estimated time per respondent is 0.17 hours (10 minutes).

Annual Burden Hours

The annual burden estimate is 35.87 hours [0.17 hours × 211 respondents]. The rounded estimate is 40 hours.

Total Burden Cost (Capital/Startup)

The Department expects a one-time burden for covered chemical facilities with an approved SSP/ASP. There are approximately 3000 covered chemical facilities regulated under CFATS. Therefore, the Department estimates that there will be a one-time capital/startup cost of $34,537.20 [3000 covered chemical facilities × 0.17 hours × $67.72 (average hourly wage rate for Site Security Officers)]. The rounded estimate is $34,600.

Total Recordkeeping Burden

There is no recordkeeping burden for this instrument.

Total Annual Burden Cost

The total burden for the identification of additional potential chemical facilities of interest and assets at risk is $36,966.3164 [35.87 annual burden hours × $67.72 (average hourly rate for Site Security Officers) + $34,537.20 (Capital/Startup Burden Cost)]. The rounded estimate is $37,000.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Analysis:

Title: Chemical Security Assessment Tool.

OMB Number: 1670-0007.

Instruments: CSAT Top-Screen, CFATS Helpdesk.

Frequency: “On occasion” and “Other.”

Affected Public: Business or other profit.

Number of Respondents: 211 respondents.

Estimated Time per Respondent: 2.65 hours.

Total Burden Hours: 900 hours.

Total Burden Cost (capital/startup): $0.

Total Recordkeeping Burden: $0.

Frequency: “On occasion” and “Other.”

Affected Public: Business or other profit.

Number of Respondents: 211 respondents.

Estimated Time per Respondent: 2.65 hours.

Total Burden Hours: 900 hours.

Total Burden Cost (capital/startup): $0.

Total Recordkeeping Burden: $0.

Frequency: “On occasion” and “Other.”

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–5903–N–01]

Notice of Single Family Loan Sales (SFLS 2016–1)

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of sales of mortgage loans.

SUMMARY: This notice announces HUD’s intention to competitively sell certain unsubsidized single family mortgage loans, in a sealed bid sale offering called SFLS 2016–1, without Federal Housing Administration (FHA) mortgage insurance. This notice also generally describes the bidding process for the sale and certain persons who are ineligible to bid. This is the first sale offering of Fiscal Year (FY) 2016 and the sale will be held on November 18, 2015.

DATES: For this sale action, the Bidder’s Information Package (BIP) was made available to qualified bidders on October 21, 2015. Bids for the 2016–1 sale will be accepted on the Bid Date of November 18, 2015 (Bid Date). HUD anticipates that award(s) will be made on or about November 19, 2015 (the Award Date).

ADDRESSES: To become a qualified bidder and receive the BIP, prospective bidders must complete, execute, and submit a Confidentiality Agreement and a Qualification Statement acceptable to HUD. Both documents are available via the HUD Web site at: http://www.hud.gov/sflosales or via: http://www.verdiassetsales.com.

Please mail and fax executed documents to Verdi Consulting, Inc.: Verdi Consulting, Inc., 8400 Westpark Drive, 4th Floor, McLean, VA 22102, Attention: HUD SFLS Loan Sale Coordinator, Fax: 1–703–584–7790.

SUPPLEMENTARY INFORMATION: HUD announces its intention to sell in SFLS 2016–1 certain unsubsidized non-performing mortgage loans (Mortgage Loans) secured by single family properties located throughout the United States. A listing of the Mortgage Loans is included in the due diligence materials made available to qualified bidders. The Mortgage Loans will be sold without FHA insurance and with servicing released. HUD will offer qualified bidders an opportunity to bid competitively on the Mortgage Loans.

The Loans will be offered in two pool types. The Department will offer national loan pools for bid and will also offer regionally-based pools, with additional purchaser requirements, that are called the Neighborhood Stabilization Outcome pools. Three of these Neighborhood Stabilization Outcome pools will be designated for bidding by qualified non-profit or unit of local government entities only. These pools are located in Texas, Florida, Chicago, Illinois, and the state of Massachusetts.

The Bidding Process

The BIP describes in detail the procedure for bidding in SFLS 2016–1. The BIP also includes a standardized non-negotiable Conveyance, Assignment and Assumption (CAA Agreement). Qualified bidders will be required to submit a deposit with their bid. Deposits are calculated based upon each qualified bidder’s aggregate bid price.

HUD will evaluate the bids submitted and determine the successful bid, in terms of the best value to HUD, in its sole and absolute discretion. If a qualified bidder is successful, the qualified bidder’s deposit will be non-refundable and will be applied toward the purchase price. Deposits will be returned to unsuccessful bidders.

This notice provides some of the basic terms of sale. The CAA Agreement, which is included in the BIP, provides comprehensive contractual terms and conditions. To ensure a competitive bidding process, the terms of the bidding process and the CAA Agreement are not subject to negotiation.

Due Diligence Review

The BIP describes how qualified bidders may access the due diligence materials remotely via a high-speed Internet connection.

Mortgage Loan Sale Policy

HUD reserves the right to remove Mortgage Loans from SFLS 2016–1 at any time prior to the Award Date. HUD also reserves the right to reject any and all bids, in whole or in part, and include any Mortgage Loans in a later sale. Deliveries of Mortgage Loans will occur in at least two monthly settlements and the number of Mortgage Loans delivered will vary depending upon the number of Mortgage Loans the Participating Servicers have submitted for the payment of an FHA insurance claim. The Participating Servicers will not be able to submit claims on loans that are not included in the Mortgage Loan Portfolio set forth in the BIP. There can be no assurance that any Participating Servicer will deliver a minimum number of Mortgage Loans to HUD or that a minimum number of Mortgage Loans will be delivered to the Purchaser.

The SFLS 2016–1 Mortgage Loans are assigned to HUD pursuant to section 204(a)(1)(A) of the National Housing Act as amended under Title VI of the Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act, 1999. The sale of the Mortgage Loans is pursuant to section 204(g) of the National Housing Act.

Mortgage Loan Sale Procedure

HUD selected an open competitive whole-loan sale as the method to sell the Mortgage Loans for this specific sale transaction. For SFLS 2016–1, HUD has determined that this method of sale optimizes HUD’s return on the sale of these Mortgage Loans, affords the greatest opportunity for all qualified bidders to bid on the Mortgage Loans, and provides the quickest and most efficient vehicle for HUD to dispose of the Mortgage Loans.

Bidder Ineligibility

In order to bid in SFLS 2016–1 as a qualified bidder, a prospective bidder must complete, execute and submit both a Confidentiality Agreement and a Qualification Statement acceptable to HUD and applicable to the loan pool being purchased. In the Qualification Statement, the prospective bidder must provide certain representations and warranties regarding (i) a prospective bidder, (ii) a prospective bidder’s board of directors, (iii) a prospective bidder’s direct parent, (iii) a prospective bidder’s subsidiaries, and (iv) any related entity with which the prospective bidder shares a common officer, director,
