Comment

Part 6 Physical Address is the same as mailing address for most of the civil surgeons.

I suggest a comment to only fill out civil surgeon mailing address if different from above.

Page 11 The tetanus vaccines vary and are grouped together in the top 2 boxes.

The present form is too ridged, in that if you pick TDAP you cannot pick TD even though most people get both.

Tdap should have it own line and Td should have its own line to fill out since you need both.
