

**UCare's comments on CMS-10261 Part C Medicare Advantage Reporting Requirements and Supporting Regulations in 42 CFR 422.516(a).**

**Comments on proposed changes:**

- We support suspending the Sponsor Oversight of Agents reporting section.

**General comments/questions:**

- It would be helpful to sponsors if CMS would provide additional guidance for plans that have dual eligible beneficiaries.
- If guidance is released and there are issues identified, please communicate corrections immediately.
- It would be helpful to sponsors if CMS would explain in detail how they intend to use the reported data.
