INSTRUCTIONS

- 1. Show in the report all persons under 18 years of age taken into custody during the month for committing an offense of the indicated types within the local jurisdiction. (Include those released without having been formally charged.) For purposes of Uniform Crime Reporting, a juvenile should be counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be tallied. Police "contacts" with juveniles where no offense has been committed should not be scored as arrests. Instances where a juvenile is taken into custody for his/her own protection, such as "neglect," and no crime committed, should not be listed as arrests. Enter on the front of this form your disposition of all juveniles arrested.
- 2. Arrests of persons 18 years of age and over are tallied on the Age, Sex, Race, and Ethnicity of Persons Arrested, 18 Years of Age and Over reporting form.
- 3. The offenses are taken from the uniform classification of offenses and cover all the Part I and Part II offenses except traffic. In compiling the data, follow definitions of offenses in the *Uniform Crime Reporting Handbook*.
- 4. Enter opposite each offense the number of persons taken into custody listing them according to age and sex of the persons arrested and according to race and ethnicity without regard to sex. Juveniles should be listed opposite the classification of the offense for which they were taken into custody. For example, juveniles arrested for committing larceny should be listed opposite the larceny-theft classification on this report, even though they are charged with "juvenile delinquency."
- 5. The race totals should equal the age totals for each offense class.
- 6. Total all columns.
