the american people are dead set against having more immigrants come to this country to leach on us. we dont want them here. we hae too many foreigners here with their strang ecustoms of eating cats and dogs, torturing nimals for their fun and burning up animals in santeria. we dont live like that. we should not be living like that. these foreigners also believe wokmen have to dress to cover tghemselves up completely andtreat women like slaves. that is not america. we have worked too long and hard to have these foreingers come here and tell us what to do. we cant even haveour own english language anymore. we have to pay to translate 200 or 300 languages. what a cost that is. no other ocuntry bends like this for foreigners. hoyu wouldnt get far with doing that in saudi arabia. let themn stay in their own countries. we dont want them transitioning from temporary to permanent. we want them all to go home to their own coujnhtry and make it bett er in their own country. we do not want them here changing our customs. we like our customs. send them all bakc home. deport them. clost the borders. they belong in their own country living as they like, not here in america. close the damng door. now
