JenAlyse,

Minntac and Keetac have carbon capture equipment in the form of scrubbers. However, No CO2 was captured during the reporting period.

Thanks.

Tom Scott

Subject: [External]-EIA-3 form question

Tom,

In response to your questions sent to JenAlyse, Yes, please report the amount of CO2 captured in Question 7 in Part 2.

Ms. Selam Araya will help you with the removal you and your plant from the survey requirement after a few questions.

Thank you.
