Hi Mr. Bartal,

We do not believe that NGLs from standalone stabilizers are currently being captured by the EIA, which is why we're interested in adding that section to the survey. Please let me know if you have any other questions.

Thanks,

Jessica Biercevicz | Survey Statistician

Subject: FW: Proposed changes to the EIA-914 Monthly Crude Oil, Lease Condensate, and Natural Gas Production Report

Jessica,

Regarding the email below providing notice of Stabilizer data being added to the EIA's information. I was wondering how Stabilizer data is currently reflected in the EIAs data? More specifically, I am interested in if and where the NGLs produced from Stabilizers are now reflected in the EIAs current methodology.

Thank you for your help!

A Federal Register Notice (FRN) was published on April 4, 2017 regarding proposed changes to Form EIA-914, Monthly Crude Oil and Lease Condensate, and Natural Gas Production Report. The FRN can be found here: <https://www.eia.gov/survey/frn/naturalgas/FRN-60-Day-EIA-914-April-5-2017.pdf>. Please review the proposed changes described in the FRN and send your comments to Jessica Biercevicz at Jessica.Biercevicz@eia.gov before June 5, 2017. We welcome any comments and feedback regarding the proposed changes to the EIA-914 form, and look forward to hearing from you.
