Submitter Info

Comment: FRN: "An individual should be considered to have exited after they have gone 90 days without service, and with no future services scheduled. Should they return for additional services after the 90 days within the same program year and exit in that same program year the individual's exit date will be changed to reflect only the last exit date in that program year. If the individual exits in a subsequent program year, they would be counted as a new participant for purposes of that subsequent program year. Counting unique individuals in this manner will allow an unduplicated count of participants in the accountability and reporting system." We would like to confirmation that this is in error. "Graduate/Post Graduate" under Type of Recognized Credential has been removed; however, data element "Date Attained Graduate/Post Graduate Degree" appears. Why is the collection of date attained required when graduate/post graduate is not an allowable credential? *
