Comment:

Shame on Fish and Wildlife , you want to keep Utah prairie dogs , a Rodent (a cousin of the Rat) , on endanger list which has been on the list for 40 years to continue . What a waste of money. you allow the removal of bald and golden eagles , Americas greatest symbol but keep a Rat.... How many millions will be wasted and how long will you continue the hardship and economic cost to the towns and villages in Utah. this is a sham. Remove from list and stop wasting money. And apologize to Cedar city Utah. . danger posed by the prairie dogs is the health of the town's residents. Prairie dogs are rodents and can be carriers of disease. Other rodents in have been known to carry the hantavirus and plague, both of which can be fatal. *🌐
