DEPARTMENT OF HOMELAND SECURITY

National Protection and Programs Directorate, Office of Infrastructure Protection; Submission for Review of the Chemical Security Assessment Tool (CSAT) Information Collection 1670–0007

AGENCY: National Protection and Programs Directorate, Office of Infrastructure Protection, DHS.

ACTION: 30-Day Notice and request for comments: Revision of an existing information collection request 1670–0007, DHS Forms 9010, 9002, 9007, 9012, and 9015.

SUMMARY: The Department of Homeland Security, Office of the Under Secretary for National Protection and Programs Directorate, Office of Infrastructure Protection, Chemical Security Compliance Division (CSCD) has submitted the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. The information collection was previously published in the Federal Register on November 23, 2007 at 72 FR 65757 allowing for a 60-day public comment period. One comment was received on this existing information collection. The purpose of this notice is to allow an additional 30 days for public comments. The submission describes the nature of the information collection, the categories of respondents, the estimated burden (i.e., the time, effort, and resources used by respondents to respond) and cost, and includes the actual data collection instruments DHS will use.

DATES: Comments are encouraged and will be accepted until February 27, 2008. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management Budget, Attention: Nathan Lesser, Desk Officer, Department of Homeland Security/NPPD and sent via electronic mail to oira_submission@omb.eop.gov or faxed to (202) 395–6974.

FOR FURTHER INFORMATION CONTACT: A copy of this ICR, with applicable supporting documentation, may be obtained by calling Nathan Lesser, Desk Officer, Department of Homeland Security, Washington, DC 20528; and sent via electronic mail to oira_submission@omb.eop.gov or faxed to (202) 395–6974.

SUPPLEMENTARY INFORMATION: Section 550 of the Department of Homeland Security Appropriations Act of 2007, Pub. L. 109–295 (Section 550), directed the Department of Homeland Security to promulgate and enforce regulations to enhance the security of the nation’s high risk chemical facilities. On April 9, 2007, the Department issued an Interim Final Rule, implementing this statutory mandate. (72 FR 17688). Section 550 requires a risk-based approach to security. To facilitate this approach, the Department is employing a risk assessment methodology known as the Chemical Security Assessment Tool (CSAT). The CSAT is a series of publicly-available web-based computer applications: Help Desk, User Registration, Top-Screen, Security Vulnerability Assessment, Site Security Plan, and Chemical-terrorism Vulnerability Information (CVI) Authorization. All information collected supports the Department’s efforts to reduce the risk of a successful terrorist attack against chemical facilities. These CSAT collections either directly or indirectly support the identification of high risk facilities, the determination of the risk tier of the facilities, the review and approval of assessments and plans for security measures at the facilities, and/or the protection of Chemical-terrorism Vulnerability Information that would, if disclosed, substantially assist terrorists in planning and targeting the facilities.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Analysis:

Title: Chemical Security Assessment Tool (CSAT).

OMB Number: 1670–0007.

Help Desk—(DHS Form 9010)

Frequency: On Occasion.

Affected Public: Chemical Sector Facility owners and operators; general public.

Number of Respondents: 20,800 phone calls & 1,300 emails annually.

Estimated Time Per Respondent: 10 minutes per phone call & 15 min. per e-mail.

Total Burden Hours: 3,467 hours for calls & 325 hours for email = 3,792 annual hours.

Total Burden Cost (capital/startup): $0.00.

Total Burden Cost (operating/maintaining): $304,408 phone calls & $28,538 emails = $332,946 total annual cost.

User Registration—(DHS Form 9002)

Frequency: On Occasion.

Affected Public: Chemical Sector Facility owners and operators.

Number of Respondents: 16,667.

Estimated Time Per Respondent: 1 hour.

Total Burden Hours: 16,667.

Total Burden Cost (capital/startup): $0.00.

Total Burden Cost (operating/maintaining): $1,463,499.

Top-Screen—(DHS Form 9007)

Frequency: On Occasion.

Affected Public: Chemical Sector Facility owners and operators.

Number of Respondents: 16,667.

Estimated Time Per Respondent: 30 hours.

Total Burden Hours: 505,314 Hours Annually.

Total Burden Cost (capital/startup): $0.00.

Total Burden Cost (operating/maintaining): $44,371,535.

CVI User Training—(DHS Form 9012)

Frequency: Once.

Affected Public: Chemical Sector Facility owners and operators.

Number of Respondents: 16,667.

Estimated Time Per Respondent: 30 minutes.

Total Burden Hours: 8,333 annually.

Total Burden Cost (capital/startup): $0.00.

Total Burden Cost (operating/maintaining): $731,750.

Security Vulnerability Assessment—(DHS Form 9015) and Alternative Security Program in Lieu of SVA

Frequency: On Occasion.
**DEPARTMENT OF HOMELAND SECURITY**

**Federal Emergency Management Agency**

**Notice of Adjustment of Statewide Per Capita Threshold for Recommending a Cost Share Adjustment**

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice.

**SUMMARY:** FEMA gives notice that the statewide per capita threshold for recommending cost share adjustments for major disasters declared on or after January 1, 2008, is $122. The NRF builds on the NRP and, using the comprehensive framework of the National Incident Management System (NIMS), serves as a guide to how the nation conducts all-hazards incident management.

**DATES:** FEMA issued the NRF on January 22, 2008. The NRF is effective March 22, 2008.

**ADDRESSES:** The NRF is available online in the NRF Resource Center located at http://www.fema.gov/NRF. The draft and final NRF, all related Federal Register Notices, and all public comments received during the comment period are available at www.regulations.gov under Docket ID FEMA–2007–0007. You may also view a hard copy of the NRF at the Office of Chief Counsel, Federal Emergency Management Agency, Room 835, 500 C Street, SW., Washington, DC 20472.

**SUPPLEMENTARY INFORMATION:** The National Response Framework (NRF) is applicable to all Federal departments and agencies that may be requested to provide assistance or conduct operations in the context of actual or potential disasters and includes mechanisms for the coordination and implementation of a wide variety of incident management and emergency assistance activities including Federal support to State, local, and tribal authorities; interaction with private-sector organizations; and the coordinated, direct exercise of Federal authorities, when appropriate.

By adopting the term “framework” within the title, the NRF is now more in keeping with its intended purpose, specifically, simplifying the language, presentation and content; clarifying its national focus; articulating the five principles of response doctrine; and methodically describing the who, what and how of emergency preparedness and response. The NRF explains the common discipline and structures that have been exercised and matured at the local, State, and national levels over time. It captures key lessons learned from Hurricanes Katrina and Rita, particularly how the Federal Government is organized to support communities and States in catastrophic incidents.

The Federal Emergency Management Agency (FEMA) received numerous comments on the draft NRF, which FEMA published for public comment in September 2007. The final version...
