the shot material is completely unacceptable and in fact environmentally harmful. we cannot accept any of the materials suggested. they all harm environment.

to encourage these gun wackkos to go out and kill wildlife and little birds so they can get their macho jollies is the most insane program i ever heard of. it is all done for moneygrubbing.

it has no high ethical or moral purpose at all.i object to this action and uwsfws has come under the umbrella of gun wackos.
