Subject: Fw: public comment on federal register any alaska grant should be part of the general grant program for all states- there is no necessity to establish a special grant for just one state -out of control in spending stupidity

to cut costs and spending any program on Alaska grants should be part of the general state grant program and not have its own project and its own spending program. this leads to overspending and to states not having any connection with each other as to the necessity for grants for each state. this is unnecessary and out of control spending for a separate project for one state and appears to be discriminatory. does iowa have its own project? all states should be treated the same. they all need water - clean water as this agency has obviously not provided any help to either flint michigan or to some cities in nj which have water issue. this comment is for the public record please receipt. jean public
