### Comment

There is be fabricated studies and tons of media articles by Paid below

- 1) Attorneys and their consortium
- 2) Non-Profits who is business of importing more immigrants.
- 3) A group of Federal Employees who are working in departments which benefits in eating funds based on importing more immigrants
- 4) Unethical Politicians who get lobbying money from above 3 groups.
- 5) Left wing media photo shopping plight of immigrants,fake stories to create more readership, blackmailing American compassion.

Those will be submitted as comments and How immigrants will be contributing Zillion dollars when they allowed to come freely and hop on different visa categories to circumvent visa overstay and covering up their fraudulent intentions.

If USCIS has 1% commitment to US Citizens and follow Constitution and laws, then do you work to throw out the bullying by Attorney Cartel and stop change of visa status, EAD's for H4, OPT, Visa abuse of H1B,L1,B1/B2 etc

Introspect what you have done in last 2 season of H1B visa lottery, just check how many job titles companies are hiring low cost immigrants. US Unemployment figures are fabricated, millions of people are looking for Job even in field of Teaching, Sales job,

physiotherapist and what not. Over last 3 decades dummy universities and mushroomed giving these degrees for immigrants in the pretext of getting EAD/Work Permits and then stealing American jobs. Do something, substantial than LIP service and TWEETS @USCIS.
