### General Comment

Dear Ms. Leiton:

This correspondence is regarding the proposed changes to Section 403 (c) of the EEOICPA rules. I am very concerned about the preventable lag time in patient care this would cause. The delays created by these changes places undue stress on my patients and interrupts continuity of care during their battle against cancer.

Additionally, CO State Regulations 6 CCR 1011-1 Chap 26 is written to protect the timeliness of health care delivery in the home setting. These changes would violate those regulations as timeliness would no longer be a consideration. Rather the emphasis would shift to unnecessary paperwork that goes above and beyond industry standards for Medicare. I believe this singles out this particular group of elderly patients and have grave concerns about how this will affect their health care delivery.

Sincerely,

Dr. Peter McSweeney, M.D.  
Medical Oncologist
