Dear Mr. Elmore:

I have reviewed PRA notice #ICEB-2018-0003-0001:  
<https://www.regulations.gov/document?D=ICEB-2018-0003-0001>

This notice states that "Comments are encouraged and will be accepted for sixty days until December 31, 2018." In addition, "Written comments and suggestions regarding items contained in this notice and especially with regard to the estimated public burden and associated response time should be directed to the PRA Clearance Officer for USICE and sent via electronic mail to [icepra@ice.dhs.gov](mailto:icepra@ice.dhs.gov)."

However, there appears to be no way for the public to provide informed comments, since this docket contains no information about what new information ICE seeks to collect:  
<https://www.regulations.gov/docket?D=ICEB-2018-0003>

Please let me know the following as soon as possible:

- (1) How to view ICE's planned changes to Form I-983, " Training Plan for STEM OPT Students," given the description in this notice of "Extension, **with changes**, of a currently approved information collection."
- (2) What the new deadline for public comments will be, given that it would be unreasonable for ICE to close the comment period without providing an opportunity for the public to review the changes contemplated in this information collection request.

Thank you,  
Doug Rand
