Comment

328 million taxpayers are paying for htis program. they tax everybody to payt for this. and the fact is this agency has been doing a lousy, inept job of keeping invasive weeds out of this country.the fact is this agency deserves a grade of f minus for its work. it has allowed entry into this country of hundreds of thousands of invasive weeds.it has not taken any steps that will stop the massive immigration of toxic weeds that in fact will cost trillions to every get rid of them. this agency is inept and negligent
it needs shut down.it is not doing the job at all that it was created to do.it is simply more fat cat bureaucracy - where they dont work but get huge payroll salaries. this comemtn is for the public record.
