ABSTRACT The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) for revisions to the American Community Survey (ACS) Methods Panel Testing. An ongoing data collection effort with an annual sample of the magnitude of the ACS requires that the Census Bureau continue research, testing, and evaluations aimed at improving data quality, achieving survey cost efficiencies, reducing respondent burden, and improving ACS questionnaire content and related data collection materials. The ACS Methods Panel is a robust research program focused on enhancing the quality of the respondent experience, survey operations, and data. From 2018 to 2021, the ACS Methods Panel may include testing to address research goals, as indicated above. 12. OBLIGATION TO RESPOND (Mark primary with "P" and all others that apply with "X") 11.
