## General Comment

the health of the food that is in this program is seriously questionable. this is the same agenc that tried to claim ketchup is a food and counted as a food. how sutpid is that? in addition the food being pushed on americans these day sis genetically altered food poisoned by glyphosate, atrazine, pfas, chloropyrifos and other poisons so that the food itself is poison and is causing a massive cancer epidemic as well as americans having shorter lives and dying earlier than they ever die before inthe history of this nation. that is the food .if you tak ein bad poison food it doesnt take long for that crap to pioison your body.

secondly as far as all the children who cant be fed breakfast lunch and dinner by their parents showing a shameful lack of parental duty that then requires their neighbors to pay for the kids breakfast lunch and dinner, shows an alarming quality of parent shaving kids that they dont intend to pay for and shows a mercenary quality in americna people. where are all these people who are so shameful that they dnt care to make sure their kids eat good meals for all 3 meals. they certainly hide out through the mechanisms of this faustian govt agency. this agency is ther becaues the usda wants to make suer it can sell its food, no matter how bad the food. many kids wont eat the food in eachools because sometimes some of the schools are using outdated food,

and rotten food. this system has alot of corruption in it. many of these parents hwo claim they cant feed their kid or themselves are in the \$100,000 per year bracket but nobody in this agency ever checks on them. the corruption just continues year after year and the corrupt govt claims it is doing a good job. i is donig a miserabl ejob, teaching people to be takers of money from their neighbors, who are paying the bills. we need to make sure parents get some responsibliity bak in their lives. they are the ones responsible for feeding their kids, not others. lets close down all of these program adns see what happens. its worth a try. maybe some of the illegal imigrants ijwll clear out of america since they take and take and take. fre food. free education. free medical care. fr ee rent
