

RE: Trafficking Victim Assistance Program Data Collection, OMB No.: 0970-0467

ACF Reports Clearance Officer:

Hello,

I am a forensic nurse and a HEAL Trafficking network participant. I would like to express my great concern about the current reporting form that service providers must fill out which requires detailed information about medical services of survivors of human trafficking. Because human trafficking is a complex trauma, providers apply holistic care which includes multiple services far beyond medical services, I am concerned this form of data collection currently implemented is invasive to a survivor's privacy, and I respectfully asked it to be changed to better understand the vast social needs, and support survivors need from the community.

Thank you,

Kathleen Hackett MSN, RN, SANE-P
