---

I believe these are our first comments. Just want to share the last one below with Yvette as an fyi – interesting suggestion..... I doubt we can make that change, but it's a good point. And, it's nice to see they are in agreement with our proposed changes.

Good Evening!

Here are our comments for changes to the Intergovernmental Forms. Minnesota agrees with the proposed changes and in addition would like to request these additional changes:

### **Confidential Information Form**

- Add Race/Ethnicity Fields for parents and children to help states capture accurate data from another state

### **Child Support Locate Requests**

- Add instructions that tell caseworkers how to find out if their state has a CSENet agreement with another state

### **All Forms-**

- Change "Expiration Date" to "Review Date"
  - Having a date labeled as "Expiration Date" on the forms creates confusion and makes people think the forms are no good after the date on the document. When OMB does not review the document

and have updates made by the expiration date, it creates issues with employers, courts, and caseworkers accepting the documents as they believe them to be invalid. It also creates issues when other states cannot get the documents reprogrammed timely in their systems.
