Submitter Info

Comment:	The purpose of the census is to count the number of people
-----------------	--

inside of the United States while also gathering important information. The only question that should really be asked is "how many people live here." All of there question only provide statistics. Since the administration failed in its first attempt to get information from the voters they have turned to the states. States should protect the people in their states and not give information about their citizens or residents to the federal government. *🌐
