General Comment

I write in support of the proposed DOL rule change to establish a T-1 Report, to bring more transparency to labor union organizations financial records. Transparency would greatly benefit union members ability to determine whether the unions use of their dues which come out of their paychecks are truly used to benefit them, the employee.

It is difficult for employees/union members to make educated decisions when selecting their union officials if they are unaware of how their union disburses funds.

Lack of transparency in trusts only benefits those who have secrets to keep not the rank and file union member, that union members family, or the American public.
