import of pork filled pasta should be shut down. this is costing huge sums of money for taxpayers to pay for these inspectors and the product can be nothing but harm to americans. i see no need to import this product into america.it shoudl be shut down. it doesnt even pay its own way but is a burden ont he taxpayers of

america. shut down this import. this comment is for the public record. we dont need to kill pigs for this product at all. *No documents available.*
