If there can be a faster, easier process for Indigineous-Native Americans,nation's,tribes,Pueblo's,villages,or descendants, families, Indian doctors,medicine (men, & or women). To aquire, recieve, or obtain, for personal use, spiritual, ceremonial purposes. then I feel there should be a way implemented.This is apart of the NATIVE American Freedom of Religion act 1978, as well as other federal laws, that pertain to such as mentioned above. More over there has been issues regarding these matters of possession, use, and conflicts that otherwise could have been avoided, through simple identification of tribe, family, etc. This is a problem Indigineous people should not have.
