Your comment: For the Call Report and FFIEC 101 Reporting Revisions (numbers 1557-0081 and 1557-0239) - section F of the FRN speaks to changes to lines 20 and 21 of RC-R, part II. Current instructions in this area do not clearly delineate where the client-facing leg of a derivative cleared through a CCP/QCCP should be reported (OTC or centrally cleared). Can this be more clearly delineated in instructions as part of this update?
