Docket: BIA-2019-0004
Tribal Transportation Program; Inventory of Proposed Roads

Comment On: BIA-2019-0004-0001
Tribal Transportation Program: Inventory of Proposed Roads

Document: BIA-2019-0004-DRAFT-0005
Comment on FR Doc # 2019-15928

Submitter Information

Name: Mo Johnson

General Comment

This rule seems like it would help lower tribal expenses as it relates to transportation management. Once a road has been properly included in the National Tribal Transportation Facility Inventory(NTTFI), it makes little sense to require yearly data showing that the road/access route/bridge should remain in the NTTFI. However, it does make sense to require data(pedestrian count/traffic count/etc.) to add new roads to the NTTFI.
