Hi!

I was just thinking about you both and wondering how you were doing. I did my best to get an accurate email count. These aren't all emails I sent but they were emails that came to my inbox regarding MH.

E-mails that included Domna in regards to MH 479
E-mails that included Kelly and I (including exchanges with hospice social workers): 242
E-mails that included Megan and I (some were care related and not insurance/coverage related but they were brief check ins or food updates): Over 200 in 2024. Perhaps half were related to her state and coverage concerns?
That does not include texts, faxes (I've closed my fax account so I don't have those records) and phone calls. I agree with Kelly that it was easily 2 hours a day on average just to stay on top of email communication and other matters.

Phew that was so much work - most of which went unpaid for all 3 of us. I don't think I could ever do that again but last I heard she is alive and doing pretty well. I hope that's still the case. I do believe we helped save her life!! I hope you're all doing well!

Hey Domna!!

Hope youre doing well. I unfortunately deleted many emails because they were really taking up a lot of storage in my email but the ones I do still have and am able to count (and some are email threads, so there are back and forths within them) is at least 150.

I'm sure this isnt representative of how time consuming it was, I wish i could just say how many hours each day because that was closer to 2 hrs a day of admin work, up to 5 days a week for about 4-5 weeks. Im sure more for you all!
