

Jim Jusko created FireLight Health in 2020 to foster a more functional marketplace in healthcare services. FireLight provides healthcare pricing data and analysis to help purchasers of healthcare control costs and improve value when selecting or contracting with networks and providers.

Jim currently serves on a technical expert panel for the MITRE Corporation, a federally funded R&D center that is providing recommendations to CMS regarding price transparency data file standards. He is a former attorney and received a BS in Mathematics from UCLA and a law degree from UC Berkeley.
