

Federal Onshore Oil & Gas Leases by Administration, After 24 Months in Office

Administration	Sales	Total receipts (millions, USD)	Parcels receiving bids	Acreage receiving bids (thousands)
Biden	6	22	113	71
Trump	56	1,512	2,361	2,281
Obama	65	360	2,462	1,922
Average	42	631	1,645	1,425

Sources: Bureau of Land Management; EnergyNet; API calculations.

Notes: Up to date as of January 20, 2023. For the Trump and Obama administrations, onshore leasing data is extracted from BLM reports obtained using a web archive. These BLM reports provide data on sales, parcels receiving bids, and total receipts including rents, bonuses, and administrative fees. For the Biden administration, EnergyNet lists total high bids and does not include rents or administrative fees which may slightly undercount Biden's onshore lease revenue.
